

DoP / Lighting Cameraman

Andy Clifford

career summary

I have been working as a Lighting Cameraman for the best part of 10 years. During that time I have worked on a huge diversity of programming. In both the broadcast and corporate fields. Working with all types of camera formats and recently with some of the latest HD Equipment. I have worked as a single PSC unit or as part of a big or small multi-camera set up. I have worked LIVE and AS-LIVE.

Work has taken me all around the world to some very demanding locations and as well to some not so demanding places too. From living in huts in Indonesia and the deserts of Iraq to shooting on the beaches of Barbadoes and of course beautiful Britain.

Shooting from, in or on cars, boats, trains, airplanes, helicopters or tuk tuks always seems to be in a days work. But I love the challenge and love creating something new.

specialist filming skills

In or On Vehicle Filming
Mini-Cams
